### Relaxed Last Week

### As Fats Improved

Kansas City, April 14, (USDA) — National Feeder Cattle and Calf Summary approximately 232,800 this week; 252,000 last week; 225,000 last year. Feeder Cattle and Calf prices rebounded firm to 8.00 higher, recovering much of last week's declines. The rise in slaughter cattle prices gave new impetus to feeder buyers, and while thin under 600 lbs. suitable to graze where eagerly sought, there was keen competition for fleshy steers over 700 lbs. and fleshy heifers over 600 lbs. particularly medium and large framed offerings. California broke through the 70.00 calf barrier, reporting 3 weights up to 75.00.

# SANTA GERTRUDIS NEWS

The Santa Circuit

By SUDDY SMITH

Harold Young of Winrock Farms in Morrilton, Ark. and I just completed a selection trip for the upcoming Premier Santa Gertrudis Association's Spring Sale to be held on Mt. Petit Jean May 20th. We covered an area from New Mexico, Colorado, Oklahoma, Arkansas, Ala., and most of Texas. One thing that was apparent was the need for breeders to prepare their cattle well in advance of sale. It takes time to condition cattle, especially when they have come through winter like the one we just had. Basically, the cattle we selected were from breeders that had selected quality cattle well in advance of the screening. These progressive breeders had their branding, docking, horning, fertility checks, etc., taken care of well in advance of our arrival. Not to mention the fact that they had provided a nutrition level adequate for the respective animals to express themselves.

My experience in the cattle business has been that you cannot starve profit out of the animal. In order to merchandise a product you must make it an eye appealing product to the buyer. This takes planning. A consignor to the various sales that are developing around the country needs to take those factors into consideration and prepare for them. Make sure that you select the proper quality before you market the cattle with more cattle than you plan to sell in the event something happens to them. Plan for proper calving dates and then develop them.

Say, the response to the College of Santa Gertrudis Knowledge in Tulsa, Oklahoma on May 11th and 12th has been far above our expectations. We have been receiving reservations daily. The faculty for this event represents many years of Santa Gertrudis knowledge and experience. A top flight program is being planned for those in attendance, not to mention the quality of cattle that are going to be used for demonstration purposes and those that are selling in the Spring Opportunity Sale May 12th. The sale consists of show prospects, herd sires, three in one packages, and sires that will work in the best of herds.

Recently, S.G.B.I. completed a school for qualifying new show judges. The turnout at Mercedes, TX was good. Over 80 judges were approved. Among these were a lot of commercial cattle men, purebred breeders from other breeds, county agents, and university men from all over the country. This gives us qualified cattle men to select our cattle at the shows that should be unbiased in their selection. From the looks of things, these extra judges will be needed due to the large number of Santa that will be on the show road, plus the new S.O.B.I. approved shows, Brenham, Tyler, and Victoria.

His operation was large enough to make a three-way rotational crossbreeding program practical. He was also able to go into a silage feeding program which helped eliminate winter feeding risks. However, the major fac-

tor contributing to the success of this operation was the fact that this producer was willing to follow advice and stick with a long-range program. Changes and improvements come slowly in a cattle breeding and management operation. Without long-range planning and following through, it is difficult to make progress in a cattle operation.

West reported livestock entries hit the record of 14,560 head coming from 43 states and five foreign countries; grounds attendance of 810,000; and paid rodeo attendance of 125,508, a record sided by two added performances in 1978. He said gross revenue for the first time exceeded \$1 million, totaling \$1,004,238.38. Expenses totaled \$655,853.38, leaving a net of \$348,385.00, but most of the net was from reserves so actual profit for 1978 was approximately \$4,700.

# NEWS about LIMOUSIN

## Around The Limo Loop

By KEN HOLLOWAY and BRUCE BROOKS

Another busy and exciting month in the Limousin breed. The upsurge in the cow market coupled with the thought that the grass might really get green again has given most all cattlemen a refreshing new outlook. Cowmeas are coming to the realization that a herd bull must add increased performance to his calf crop—therefore, he's looking for a "Limmy" bull. Also, after such a miserable winter in our country, cowmen are searching for good replacement females. All this combined into one boiling pot makes things look like one exciting spring season.

To kick things off right, Wiggins Ranch Co. recently had a "Two-Day Limo-Sale" at Chattanooga, Okla. The first day saw 83 bulls sell for an average of \$1883. The second leg of this exciting weekend saw 189 females sell with a two-day total of \$408,976 for an average of \$1620. The WRC Sale offering sold to 102 buyers from 18 states and Venezuela. Four days later in Timberlake, S.C. an offering of 81 bulls and 34 heifers at the Pete Carmichael's Lookout Lim-

ousin sales and hope you plan to be with us. April 22, is the date for the Washita Cattle Co., and McKown & Sons Joint Percentage Limousin Dispersal. This offering will include approximately 75 halfblood cows with fall 3/4 calves at side. Many of these females are black with black calves at side... an excellent offering of club calf prospects as well as a very useful group of replacement females.

Also upcoming will be the TEXS Limousin Ranch Sale, May 18, at the ranch, New Braunfels, Tx. As always, Floyd McGown and Allen Arfsten have assembled an offering of high percentage Limousin cattle to please the most discriminating cowman. Included in the offering will be an outstanding black 15/16 son of Edclair that certainly deserves your attention. Also selling will be a top offering of 75% and 87% females as well as 87% bulls.

The following day May 14, J.V. Hutchison, Dill, Tx., will present a very useful group of open 87% females, bred 3/4, 7/8 spring pairs, percentage bulls and a great group of

## **Hereford Steer Show Set For 1978 American Royal**

The American Hereford Association (AHA) and the American Polled Hereford Association (APHA) announce the establishment of a terminal purebred junior Hereford steer show for the 1978 American Royal Livestock Show.

Open to Hereford and Polled Hereford steers owned by junior exhibitors, the show will feature total steer evaluation combining on-hoof and carcass appraisal. Co-sponsored by the AHA, APHA and the American Royal, some \$4,000 in premiums will be paid to youth participating in this show.

Steers eligible for the show must be sired by a registered Hereford or Polled Hereford bull and be out of a straight-bred Hereford or Polled Hereford cow. Exhibitors will be asked to verify the parentage of their steers and provide production information such as animal's birth date and breeder to the association for more information and certification forms.

Classes will be established by age, with calves dropped March 1, 1977, and after being eligible for this event.

Following class placings, the evaluation will continue as they will be slaughtered with carcass information then being collected to determine their final standing. The overall champions and other final rankings will be determined 40% on hoof and 60% on carcass. Premiums will be paid for both categories. The show is designed to represent today's industry needs. Therefore, to qualify for carcass premiums, steers will meet minimum standards for growth and quality and yield grade.

Many water tragedies occur each year by inexperienced canoers taking water that is too dangerous for beginning canoeing.

## Texas Brangus Breeders Association News

By LAUREN MAYHEW

Ludwig and Judy Brand hosted their 3rd annual "Sale of Stars" at Round Top, Texas on April 8, 1978. Ludwig welcomed all and introduced many out of state guests. The Mayor of Round Top was on hand to express his gratitude for increasing the population of Round Top from 94 to approximately 450 for at least one day. The cattle were inspected on Friday evening and Saturday morning prior to the sale. Guests were served morning brunch, a luncheon of Bar-B-Que with all the trimmings, and after the sales drinks and snacks. Throughout the day the guests were entertained by Jim Gough and Cosmopolitan Country, a delightful Country-Western group. For additional details on this great sale see the report on other page in this section. Brangus Days in the Hill Country are being planned on the same order as last year with minor additions. Activities are planned as follows: Thursday, June 1: Beginning at 12:30 a.m., the TBBA Summer meeting will be held at the Sunday House in Kerrville; IBBA Inspection Seminar, Fairgrounds in Fredericksburg; P&F Cattle Company's annual Calf Fry Party at the Louise Hays Park in Kerrville.

The Miss America Cocktail Party, Miss America Sale and Western Art Sale will be held at the River Hill Country Club. Activities on Friday night. Details will be furnished later. The TBBA Summer Party will begin at 8:00 p.m. after the sales. Tickets for the event will be \$25.00 per person. This year we will be entertained in the form of a luncheon.

Saturday, June 3: The day begins at 7:00 a.m. with a Jr. IBBA Breakfast meeting at the Sunday House in Kerrville. At 7:30 a.m. the IBBA Board of Directors will have a breakfast meeting at the INN of the Hills. Champagne Brunch will be served at 10:30 a.m. at the River Hill Country Club prior to the Top of the Crop Sale. Later that afternoon Brink's Brangus will host their annual pre-sale Cocktail party followed by Dinner and then the Brink's Brangus Annual Production Sale. Motel Reservations should be made early.

**The Circle Seven Commercial Brangus Bull.**

Why do you think so many cowmen have been buying him?

Like all other types of businessmen, it is necessary that a cowman make daily decisions affecting his operation. He must project his needs for the future and select the methods of management that will keep him in the black. A good cowman plans and chooses carefully. He knows the importance of getting a return on every investment he makes. He can't take chances; not on the nutrition of his cattle, and not on his bulls.

Circle Seven takes out the guess work involved with buying commercial bulls. Each and every bull produced

by Circle Seven is performance tested. The data is assembled for the buyer and each bull that leaves the ranch is guaranteed to be a sound breeder.

More and more cattlemen are switching to Circle Seven bred Brangus bulls. The fact is, last year more than 450 head went into commercial herds in 5 states. These cattlemen not only like the quality they like the price.

Quality in Quantity at Competitive Prices.

**1978 International Brangus Show**

Brangus from some of the top herds in the country were out in force on Feb. 23rd for the judging of the 1978 International Brangus Show held in conjunction with the Houston Livestock Show and Rodeo. Herman Purdy, Alexandria, Penn. judged the 100-head event, considered one of the breed's most prestigious shows.

The day was highlighted when bulls that were full brothers captured grand and reserve grand champion bull honors. DMA Chap 533, exhibited by Diamond M Acres, Simonon, Texas; Granada Brangus, Bryan, Texas; and Willow Springs Ranch, Burton, Texas was named grand champion. The March 1976 son of DMA Champ 300 was also senior champion and winner of the two-year-old bull class. The reserve grand champion and bull calf champion was DMA Champ 700 shown by Diamond M Acres. Also sired by DMA Champ 800 and out of WSR Mary Lou 1, this young bull placed first in the early junior bull calf class over nine other entries.

The female championships were divided by Choya Ranches, Camp Wood, Texas and Brink's Brangus, Kerrville, Texas. WSR Miss PW 120-10, shown by Choya, was the grand champion Brangus female. This daughter of the 1974 Futurity

**BRANGUS**  
The Ideal Mother.

There's just one reason you need Brangus cows working for you—PROFIT!

Brangus is America's number one brood cow, because she consistently produces calves that are in great demand by stockers, feeders, packers, and consumers. And this means consistent profit for you!

Brangus females mature early, calving as 2-year-olds with no problems, and they give a 20% to 40% longer productive life. They are excellent milk producers, and their calves gain faster, wean heavier, and do better than calves of other breeds. With Brangus females, you eliminate sunburned teats, sore eyes, and other disease and pest-related problems.

Only animals with a 3/8 Brahman-5/8 Angus heritage are true Brangus, for only this combination gives animals with the hardiness, adaptability, and high production that is consistently characteristic of the Brangus breed. If you want PROFIT, you need BRANGUS!

**MONDAY, MAY 29, 1978 - 1 P.M.**  
An Estimate of Breeds And Weights:

Breed	400-500 lbs.	500-550 lbs.	550-600 lbs.	600-650 lbs.	Total
Hereford	70	20	25	85	150
Angus	20	20	25	20	85
Holstein	15	10	10	10	45
Brangus-Braford	30	15	10	10	65
Other Crosses	30	30	100	40	200

Most of the cattle were weaned last fall and have grazed ryegrass/wheat past-  
ure during the winter. There will also be some calves and lighter color  
cattle for summer grazing.  
The majority of these cattle were vaccinated for blackleg and leptos; poured  
for grub and wormed before going on pasture. These cattle are the type and  
quality that make economical gains and grade at acceptable weights.
